Walt Disney Concert Hall

Designed by architect Frank Gehry, Walt Disney Concert Hall, new home of the Los Angeles Philharmonic, is designed to be one of the most acoustically sophisticated concert halls in the world, providing both visual and aural intimacy for an unparalleled musical experience.

The interior of the hall includes a large concert organ; the Founders Room and Children's Amphitheater are designed with highly-polished mirror-like panels. Most of the building's exterior is designed with stainless steel with a matte finish.

Saturday, June 25, 2011
